> No Room For Error

Any company managing IT Projects knows that project delays and overruns cost you dearly, often caused by teams of people that are not being managed effectively.

Putting this right starts with effective learning, achieved by receiving effective training, which is where **PMadvice Multi Method Learning** comes in.

PMadvice use three key methods to deliver training; an intensive 5 day Project Management Course, the PMadvice Book for both learning and reference and PodCast training to listen to anytime, at work, at home or on the move.

Our intensive 5-day course blasts your staff into action, giving them the skills, confidence and tools to make a difference. The PMadvice Project Management Book is provided for detailed guidance and reference material. The PodCast of the PMadvice Book gives you the ability to receive training on the move and have short, quick reference refresher training.

PMadvice know that our approach makes a difference; you will see the results yourselves as projects arrive on time and under budget. Apply online [NOW](http://www.pmadvice.co.uk), and start to see the benefits.

> Our mission

“To deliver high quality training to our clients, using innovative methods that achieve effective results, enabling our clients to see a significant gain in the effective delivery of business projects”

> PMadvice

We work with the up-most integrity to ensure that our clients get the very best return on investment.

We have over 20 years experience in managing some of the biggest projects in Europe, knowledge we have now packaged to deliver in the most effective manner.

> Approach

We use proven approaches to deliver quality training, we are aware that time is valuable and work to provide different methods to meet the challenges of the business environments of today.

> Experience Counts

We know nothing counts more than experience; all PMadvice training courses are delivered by Ian Tomkins, the author of PMadvice accompanied by experienced Programme and Project Managers.

> Bespoke

We appreciate that every business is different; you have special requirements, that’s what makes you different and competitive in your market. PMadvice will tailor its courses to include your unique requirements.

> What You Get

On a PMadvice Project Management course each delegate will receive;

- 5 days intensive training
- A copy of the PMadvice Book
- An MP3 player containing the PodCast of the PMadvice Book, by Project Phase
- A special Section-by-Section 5 minute Reference PodCast.

> The Bottom Line

Programme & Project Management is our speciality; we deliver high quality training.

End result - better performance.
